

MANIPUR STATE POWER DISTRIBUTION COMPANY LIMITED
(3rd Floor, New Directorate Building, Near 2nd MR Gate, North AOC, Imphal, Manipur - 795001)

No. 1/4/ MSPDCL/PMU-III/MVCC/2026/2371-73

Imphal, August. 05, 2026

PUBLIC NOTICE

MSPDCL is undertaking a major system improvement initiative involving the replacement of existing bare 11 kV conductors with **Medium Voltage Covered Conductors (MVCC)** in areas of Imphal West. To facilitate the safe execution of these works, **temporary power interruptions** will be necessary during the period of infrastructure erection, stringing and commissioning.

Consumers in the affected areas are requested to bear with the inconvenience caused during the scheduled shutdowns. Details of the affected locations and shutdown timings will be notified separately through concerned MSPDCL Division or Sub-Division offices and official communication channels. The scheduled shutdown timings will also be updated/available in our official website www.mspdcl.in.

Benefits of MVCC

The replacement of bare conductors with MVCC is expected to provide significant benefits, including:

- Improved reliability and quality of power supply.
- Reduction in power interruptions caused by tree branches, vegetation, and external contacts.
- Enhanced public safety by minimizing the risk of accidental electric shocks.
- Reduction in line faults and technical losses.
- Improved resilience against adverse weather conditions such as storms and heavy winds.
- Reduced maintenance requirements and faster restoration of supply during faults.

This infrastructure upgrade is part of MSPDCL's ongoing efforts to strengthen the distribution network, improve consumer services, and ensure a safer and more reliable electricity supply across Manipur. MSPDCL sincerely regrets the inconvenience caused and seeks the cooperation and understanding of all consumers during the execution of these essential works.

(Mangsatabam Rabi Singh)
Managing Director, MSPDCL
